Twin Vee PowerCats and Wholly-Owned EV Subsidiary Forza X1 Make Joint Announcement with North Carolina Governor Roy Cooper to Build Large Scale Electric Boat Factory in McDowell County, NC

FORT PIERCE, FL / ACCESSWIRE / July 29, 2022 / During a press conference yesterday with North Carolina Governor Roy Cooper, Twin Vee PowerCats, Co. (NASDAQ:VEEE)(“Twin Vee” or the “Company”), announced that Forza X1, Inc. (“Forza X1”), Twin Vee’s wholly-owned EV subsidiary, would obtain incentives from the North Carolina Department of Commerce and the McDowell County local government to establish its electric boat manufacturing operations in McDowell County, North Carolina. Jim Leffew, President and CEO of Forza X1, lead the efforts with state and local entities, which resulted in selecting the site in McDowell County.

Within the next thirty days, the North Carolina Department of Commerce will finalize the incentive package in a Community Economic Development Agreement (CEDA). The CEDA, among other things, will formally create the Job Development Investment Grant Program along with the investment and performance criteria Forza X1 must follow in the coming years to receive the grant funding.

Forza X1 expects to invest over \$10.5 million in land, buildings and fixtures, infrastructure, and machinery and equipment by the end of 2025 through the construction and establishment of its new manufacturing plant in McDowell County. Once constructed, and after Forza X1 ramps up its electric boat manufacturing process, Forza X1 anticipates creating as many as 170 new jobs. The CEDA will require that each job created pay a minimum average annual salary of \$51,047, above the current average wage in McDowell County of \$39,071. Using a formula based upon fifty percent (50%) of state personal income tax withholdings paid by Forza X1 for net new jobs created at the manufacturing plant, North Carolina's Job Development Investment Grant Program will authorize the potential reimbursement to Forza X1 of up to \$1,367,100, spread over 12 years.

Additional incentives include the opportunity to obtain job talent through the state's community college system with training tailored to Forza X1's staffing needs. Forza X1 intends to partner with the North Carolina Community College System and its Customized Training Program to design a customized plan to meet Forza X1's specific workforce development requirements.

McDowell County is also offering support to Forza X1 by conducting several essential surveys required before construction begins, such as the environmental site assessment, boundary survey, and a wetlands report. It is expected McDowell County will also provide a variety of infrastructure support for the manufacturing facility, including a paved entrance road, rough grading and clearing of land, preliminary civil engineering services for site layout, utilities, waived water and sewer connection fees, and expedited permitting.

"We want to thank Governor Cooper and his administration. We've received tremendous support on this incentive grant from **the North Carolina Department of Commerce and the McDowell County local government. Our new manufacturing facility in McDowell County** will be designed as a dedicated lean manufacturing space incorporating closed-molded composite boat building technologies and electric engine assembly processes," states Leffew. "We're excited to get started and appreciate our partnership with North Carolina."
